

Qualification card – Plasterer

This document is used to evaluate a job in the construction sector as plasterer. It covers three areas:

- 1) A checklist of pre-requisites that can be used in an information and orientation phase or on the first day of a work placement,
- 2) The main personal skills and qualities required,
- 3) Practical skills, related to the job.

Parts 2 and 3 are assessed by the subject and a professional during the work placement in order to monitor progress and to estimate the distance to the job. The different items may also facilitate the detection and resolution of problems.

Check-list of pre-requisites and conditions		No	Yes
I have understood that...			
1	... I need to be on time and respect the schedule		
2	... if I am sick and unable to work, I must notify my supervisor as soon as possible and send him/her my sick note		
3	... I must respect the safety instructions		
4	... I must respect instructions and practices for breaks		
5	... I must wear protective equipment		
6	... the work is physically demanding (standing, loads...).		
7	... I must not be prone to allergies		
8	... I must speak English with my colleagues		

Transversal skills and qualities		0	1	2	3	4
1	I am careful and precise					
2	I am organised and work methodically					
3	I can work quickly					
4	I have a sense of decoration					
5	I am physically fit					
6	I can work in a team with colleagues from different backgrounds					

Practical skills		No yet	Just started	Half-way	Close to goals	Good to go
I am able to...						
1	... use the tools and equipment assigned to a job correctly					
2	... name the different tools (and I know how to use them)					
3	... read and draw a plan					
4	... choose appropriate materials					
5	... sand and coat surfaces					
6	... install fixing supports					
7	... prepare plaster					
8	... shape by casting, moulding, spraying and smoothing
